We keep here the same notation as in the above-referenced paper. In the paper, the proofs of Theorems 3.1 and 3.5 have some errors, because of an assumption on $\{\alpha_{ni}\}_{n \geq 0} \subset (0, 1)$ for $i = 1, 2, \ldots, r$; namely $\alpha_{ni} \to 0$ as $n \to \infty$ for $i = 2, 3, \ldots, r$. To correct the proofs, it suffices to assume in theorems (and corollaries) that $\{\alpha_{ni}\}_{n \geq 0} \subset [\epsilon, 1 - \epsilon]$, for some $\epsilon > 0$ and $i = 0, 1, \ldots, r$. Therefore, the correct versions of Theorems 3.1 and 3.5 are as follows.
